

One-Page Strategic Management Plan

FindYello.com Modernisation · AI Concierge Service Enhancement

THE GOAL Deliver the FindYello.com modernisation and launch the AI Concierge by Q2 2027, converting AI-assisted discovery into measurable advertiser leads.

FOUNDATION

- **Mission:** help Caribbean businesses be found, chosen, and contacted through modern digital discovery.
- **Vision:** the region's trusted first stop for finding local businesses.
- **Values:** verified accuracy, client independence, documented delivery, plain communication.

FINANCIAL

01

- Grow advertiser lead events by **30%** for the pilot cohort within two quarters of Concierge launch.
- Deliver the engagement within the approved budget, with change requests costed before approval.

CUSTOMER / CLIENT

02

- Launch the AI Concierge with WhatsApp contact paths on verified listings.
- Raise verified-listing coverage to **85%** in pilot categories before launch.
- Monthly plain-language performance summaries to every pilot advertiser.

THE AI SERVICE ENHANCEMENT

AGENT 01

FindYello AI Concierge

Turns natural questions into verified matches with maps, reviews, and a WhatsApp contact path. Discovery becomes a conversation, not a keyword search.

AGENT 02

Agentic listing verification

Continuously cross-checks phone numbers, hours, and websites, flagging stale records for human confirmation. Verification becomes continuous, not periodic.

AGENT 03

Advertiser analytics agent

Turns raw lead events into a monthly plain-language summary for every SME advertiser: what happened, what changed, one next step.

KEY PERFORMANCE INDICATORS

MEASURE	TARGET
Advertiser lead events (pilot cohort)	+30%
Verified-listing coverage (pilot categories)	85%
Concierge-to-contact conversion	25%
On-time weekly reporting	100%

COMPETITIVE ADVANTAGES

- Agent-assisted delivery workflow with senior project leadership.
- Matrix structure pairing functional depth with one engagement lead.
- Living project website as a public accountability record.

INTERNAL / OPERATIONAL

03

- Run continuous agentic listing verification with human confirmation on flags.
- Hold **100%** on-time weekly status reporting across all workstreams.
- Route all scope changes through the change-control log.

PEOPLE & LEARNING

04

- Train every team member on agent-assisted workflows with human review.
- Rotate backup reviewers across workstreams to spread knowledge.
- Capture lessons at each milestone into the shared register.

IMPLEMENTATION RHYTHM

- **Weekly:** Monday stand-ups and Friday written statuses.
- **Monthly:** client steering reviews against milestones.
- **Quarterly:** plan review of KPIs, risks, and targets.

Why it matters: the AI layer attacks the platform's two historic weaknesses at once, stale data and unclear advertiser value. Each agent strengthens the next.
